AWARDS
& SCHOLARSHIP PROGRAM

FREQUENTLY ASKED QUESTIONS

HMSA Sponsorship

1. What is the HMSA Kaimana Awards & Scholarship Program?

The program recognizes and awards high schools and their students for all-around excellence and their commitment to well-being through achievements in academics, athletics, community service, healthy activities, and sportsmanship. This is the 13th year of the program, which HMSA and the Hawaii High School Athletic Association (HHSAA) launched during the 2005-06 school year.

2. How much money does HMSA contribute to the overall sponsorship?

HMSA provides more than \$140,000 each year to support high school students, their schools, and the HHSAA. It's one of the largest corporate sponsorships of high school athletics in Hawaii's history. Over the last 12 years, the Kaimana Program has contributed nearly \$1 million in college scholarships and financial aid to Hawaii high schools and the HHSAA.

3. What's included in the program?

There are two parts of the Kaimana Awards & Scholarship Program:

- a. HMSA Kaimana Awards for schools.
- b. HMSA Kaimana Scholarships for students.

HMSA Kaimana Awards

4. Which schools are eligible for the awards?

All public and independent HHSAA member high schools statewide are eligible to win HMSA Kaimana Awards. Winners are awarded in each of the state's five leagues, which is comprised of the Big Island Interscholastic Federation (BIIF), the Interscholastic League of Honolulu (ILH), the Kauai Interscholastic Federation (KIF), the Maui Interscholastic League (MIL), and the Oahu Interscholastic Association (OIA).

5. Do schools compete in their own league for each HMSA Kaimana Award?

Yes. Each school competes against other schools in their own league. For example, an ILH school competes against other ILH schools for a Kaimana Award.

6. How many awards are presented each year?

For the 2017-18 school year, there will be nine awards recognizing schools from each league. Schools compete within each league based on high school enrollment and are eligible for one of the following awards:

LEAGUE	SCHOOL SIZE*	2017-18 AWARDS
Big Island Interscholastic Federation	Large school - 200 students or more	1
	Small school - Fewer than 200 students	1

7. How are the winning schools from each league determined?

Schools can earn points during the school year for academics, athletics, community service, healthy activities, and sportsmanship. The school with the most points in each division (based on high school enrollment) will receive an award.

a. Academics: 100 points

- i. Points are earned based on the collective grade point average of all student athletes in league-recognized team sports. The leagues and schools can choose which semester, quarter, or any combination of the two to report to the HHSAA. GPA information representing all student athletes can be submitted in a one-time report to the HHSAA after the third quarter.
- ii. Points are awarded based on the percentage of student athletes who've earned a GPA of 2.75 or higher. For example, if 55 percent of a school's student athletes earn a 2.75 GPA or higher, the school earns 55 points.

CATEGORY	POINTS AVAILABLE
Academics	100
Athletics	100
Community Service	100
Healthy Activities	100
Sportsmanship	100

b. Athletics: 100 points

- i. Points are earned according to the percentage of the total student body that participates in a team sport recognized by their league. For example, if 100 percent of the student body participates in a league-recognized team sport, the school will earn 100 points. A 62 percent participation rate would earn 62 points.
- ii. Points are also contingent on the number of league-sanctioned sports offered. Schools offering 15 or more sports are eligible to receive the maximum 100 points. Schools with fewer than 15 will receive a percentage of the maximum depending on the number of sports offered. For example, a school with 100 percent participation that offers 10 sports is eligible to receive up to 50 points.
- iii. Leagues that follow Title IX reporting standards may have more than 100 percent participation due to the number of students who participate in more than one league-recognized sport. However, the maximum points awarded in this category is 100.

PARTICIPATION IN LEAGUE-SANCTIONED SPORTS

NUMBER OF SPORTS OFFERED	MAXIMUM POINTS AVAILABLE
15 or more	100
10-14	50
6 to 9	40
5 or fewer	30

c. Community service: 100 points

- i. Each school receives points for community service performed by its entire student body. The total number of community service hours can be submitted in a single report to the HHSAA.
- ii. Points are awarded based on the number of collective student hours worked on community service projects. For example, if one student works at a homeless shelter for four hours, that's four hours counted toward a school's total.

- ii. Schools start with 100 points. Points are deducted when an incident that reflects poor sportsmanship is reported.
- iii. If a school loses more than 100 points, its score for this category will be a negative number that impacts its total points.
- iv. The leagues may institute a process in which a school, coach, or student athlete can earn points to replace points that were deducted. Individual leagues will develop and implement their own policy in this area.
